REQUEST FOR CORRECTED FILING RECEIPT

Via Facsimile 703-746-9195

Commissioner for Patents
Office of Initial Patent Examination

Dear Sir:

Attached is a copy of the official Filing Receipt received from the PTO in the above application. Because of the presence of two errors, issuance of a corrected filing receipt as detailed below is respectfully requested.

First, the Assignee's name as stated on the current filing receipt includes a comma and, therefore, is incorrect. The Assignee's name is "Sprint Communications Company L.P." (no comma after company)

The second error is the filing receipt date. All of the papers executed and filed with the PTO by the applicant and his attorney show a date of August 25, 2003. This is in fact the date the documents were placed in the U.S. Post Office's Express Mail. Apparently, however, after applicant's attorney placed the documents in the Express Mail, the Express Mail receipt was filled in incorrectly with a date of August 23, 2003, which now appears on the current filing receipt.

Therefore, it is respectfully requested that the above errors be corrected and that a corrected Filing Receipt be issued. Specifically, please change the Assignee's name to Sprint Communications Company L.P. and change the filing date to August 25, 2003. We do not believe a fee is due, however, the Commissioner is hereby authorized to charge any additional fee which may be required in connection with this request to the Deposit Account No. 19-2112. A duplicate copy is enclosed. Thank you for your prompt attention.

Respectfully submitted,

Christopher J. Eaton

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related application(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
